WORK EXPERIENCE

Utter

Jun. 2019 – Sep. 2019

Intern

Remote

- Utter is an edtech application that aims to improve fluency in the English language through conversational chatbots and live sessions with English tutors.
- Encouraging the process of ideation and thought through a secondary language, i.e. for non-fluent speakers using comprehensible input and association.
- Undertook many times, the responsibility of handling multiple demanding learners at the same time, often trying to motivate them by comparing structural similarities and dissimilarities with their own native languages with dedicated research.

Freelance

Apr. 2022 – Jun. 2023

Content Writer

- As a freelancer, worked on multiple articles across various fields ranging from Tech, Health, Entertainment, etc.
- Gained valuable experience with SEO Optimization, high reachability techniques, and different writing structures.
